

WINDOW REPAIRS

A RESTORATION CARTHAGE CLASS

MONDAY, MARCH 2 | 5:30-6:30 PM
 STEADLEY FAMILY LEGACY CENTER AT THE
 CARTHAGE PUBLIC LIBRARY

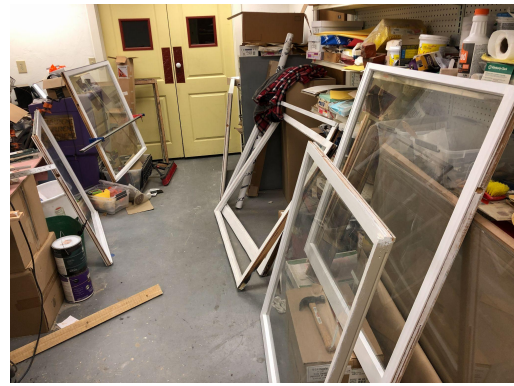

THIS CLASS IS MADE POSSIBLE THROUGH

(Source: Leeke, John, Save America's Windows, 2011, pages 17, 32. © 2011 John Leeke. Used with permission.)

The parting stop is screwed on for easy removal.

Weatherstripping:

A router is used to cut grooves in the sides of the sashes to ride on the ribbed metal.

Grooves are also made for 3 rubber gaskets (top, bottom and between sashes)

Why Shouldn't I Replace My Windows?
